Resolution:	Fixed		

Description

When a commit message contains a large number like **#2010021810000121** it becomes impossible to open the repository view.

On the log we get the error:

A RangeError occurred in repositories#show:

2010021810000121 is out of range for ActiveRecord::ConnectionAdapters::SQLServer::Type::Integer with limit 4

Our system is running with following versions (but it also affects the current redmine trunk):

Environment:

```
Redmine version      3.1.0.devel  
Ruby version         2.2.3-p173 (2015-08-18) [i386-linux-gnu]  
Rails version        4.2.3  
Environment          production  
Database adapter     SQLServer
```

SCM:

```
Subversion           1.8.8  
Mercurial             2.8.2  
Cvs                   1.12.13  
Git                   1.9.1

Try this patch.

```
diff --git a/app/models/changeset.rb b/app/models/changeset.rb
