- Category set to Plugin API
- Status changed from New to Resolved

Actually, it should be included in Redmine::Hook::Listener instead if you want to use GLoc methods in your listeners. It's done in [r2005](#). Am I missing something?

That should be fine. I've used the full class method in my hooks before this:

```
# http://github.com/edavis10/redmine-budget-plugin/tree/master/lib/budget_project_hook.rb
return "<th>#{GLoc.l(:label_member_rate) }</th>"
```

#3 - 2008-11-10 21:21 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Thanks Eric. Reopen if needed.
