Target version:		Affected version:	
Resolution:			
Description			
<p>Hi, I have migrated from Trac to Redmine and worked a time with the system but now I have a little problem with a particular issue. Currently i can access all issues within the project with this single exeception (http://redmine.soebes.de/issues/show/34).</p>			
<p>Internal error</p>			
<p>An error occurred on the page you were trying to access. If you continue to experience problems please contact your redMine administrator for assistance.</p>			
<p>Back</p>			
<p>The revision is the /trunk (R1975). May be someone has a hint?</p>			

History

Info from log/production.log may explain your error. Try tail -f production.log when accessing to your troubled issue.

#2 - 2008-10-31 16:30 - Karl Heinz Marbaise

- Status changed from New to Resolved

Hi,

it seemed that the issue entry in the database had no relationship to the author (author_id = null).
I simply updated the column and now it works fine...

Kind regards
Karl Heinz Marbaise
