Resolution:	Invalid		**Affected version:**	

Description

Hi,

I would like to upgrade my redmine software to 3.1, but during the command , bundle install, , "could not access site" error is coming. Could you please advise the solution of the issue. Please see the attached.

Regards,
Jeff

- File redmine1.png added

- Status changed from Closed to Reopened

HI Toshi,

Thanks for the suggestions, yes I am able to execute bundle installer, but there is syntax error in gem file. Could you please advise the solution.

Regards,
Jeff

#4 - 2015-11-10 12:03 - Toshi MARUYAMA

- Status changed from Reopened to Closed

- Affected version deleted (2.5.2)

Please use forum for questions.

You use Ruby 1.8 on Redmine 3.
