| Target version: | | Affected version: | |
| Resolution: | Invalid | | |
| Description | | | |
| <p>Hi,</p> <p>I am new to Redmine and I have an issue with one user. All the users can login and view things according to their permissions except one. This user can login successfully but when he logs in he gets an internal error message, so this leads me to believe that something changed on his permissions. Does anyone have any advise on this?</p> | | | |

History

#1 - 2015-11-23 09:23 - Toshi MARUYAMA

- Status changed from New to Closed
- Priority changed from Urgent to Normal
- Resolution set to Invalid
