Description

Hi all,

As for the previous patch, I had the need to send email only to the user in charge for the new status of the issue and not to the whole group of members for the project.

If you find it useful here is the patch. Suggestion on how to improve it always well accepted.

Jean thanks again for this very well designed and flexible project.

- Category set to Email notifications

- Status changed from New to Closed

As this overrides a default core feature (watchers) this belongs in a plugin. Thank you for your contribution.
