

Redmine - Defect #21379

Plugin author is not able to delete plugin versions

2015-11-29 23:32 - Tobias Fischer

Status:	New	Start date:	
Priority:	High	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Website (redmine.org)	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<p>I'm a redmine plugin author and have several plugins listed in the official Redmine plugin repository. For example: http://www.redmine.org/plugins/redmine_emojibutton</p> <p>I am not able to delete a plugin version. After the confirmation dialog I'm beeing redirected to http://www.redmine.org/plugins/redmine_emojibutton/versions/2011 and get a 403 error "not allowed to access this page".</p> <p>Plugin authors should be able to delete versions of their plugins in order to be able to do a roll back to a previous version.</p>

Is it possible to create a new issue category for the "Plugins" plugin?

And is the "Plugins" plugin somehow open source? Would be great to contribute bugfixes and such... This is not the first bug I reported which affects the "Plugins" page... -> [#19229](#)
