Description

The code syntax highlighting within Wiki pages is not working correctly in the current trunk version of Redmine (release 1980). I was exactly following the syntax given in the official Redmine Wiki (see: http://www.redmine.org/wiki/redmine/RedmineWikiFormatting):

```
<pre><code class="ruby">
  Place you code here.
</code></pre>
```

However, there is no syntax highlighting for my code. Even the example given on the official Redmine Wiki site is not working properly.

Cheers,
Claus

Associated revisions

Revision 1993 - 2008-11-08 16:18 - Jean-Philippe Lang

Fixes syntax highlighting broken by r1930 (#2143).

History

#1 - 2008-11-08 16:18 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

This was broken by r1930 and is fixed by r1993.
Thanks for pointing out.
