

## Redmine - Patch #21434

### Additional CSS class for version status

2015-12-06 13:50 - Tobias Fischer

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%
<b>Category:</b>	Roadmap	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.3.0		
<b>Description</b>			
The version status (open, locked, closed) isn't accessible for theme designers. Neither in Roadmap view nor in Version details view.			
This patch adds another CSS class after <a href="#">#19341</a> in Roadmap view.			
Plus it adds the new CSS classes from <a href="#">#19341</a> and the ones introduced here also in Version details view.			
It can be discussed where to place the CSS classes. I put it on <code>&lt;div id="#roadmap"&gt;</code> but I believe it could also be nice to have them available when styling the <code>&lt;h2&gt;</code> heading... More opinions?

#### Associated revisions

##### Revision 15270 - 2016-03-20 09:02 - Jean-Philippe Lang

Additional CSS class for version status (#21434).

#### History

##### #1 - 2015-12-06 13:53 - Tobias Fischer

Just for the record: New CSS classes are:

- version-status-open for open versions
- version-status-locked for locked versions
- version-status-closed for closed versions

This information is more useful than "completed/incompleted" from [#19341](#) when trying to add another version icon for locked versions.

but I believe it could also be nice to have them available when styling the `<h2>` heading

Sure, can you update your patch?

Yes. However, I wasn't sure where to add those classes:

- I assume `<body>` isn't appropriate as we normally don't have such classes there.
- I thought about an `<article>` tag around the whole content in `app/views/versions/show.html.erb` to match the behaviour from patch [#19341](#)
- or to add those classes to the `<div id="content">` wrapper (which seems to be uncommon as well, right?)

Any suggestions?

- Related to Defect #21433: "version-completed" class is never set when version has no due date added

##### #5 - 2016-01-22 19:46 - Tobias Fischer

Any chance to get this in 3.3 together with [#21433](#) and all the other UI/CSS improvements?  
The current patch would be okay.

However, if someone answers my question from comment 3 I'm going to update the patch 002 asap.

**#6 - 2016-01-22 23:46 - Jean-Philippe Lang**

- Assignee set to *Jean-Philippe Lang*

- Target version set to *3.3.0*

I thought about an `<article>` tag around the whole content in `app/views/versions/show.html.erb` to match the behaviour from patch [#19341](#)

That sounds reasonable.

**#7 - 2016-03-20 09:02 - Jean-Philippe Lang**

- Status changed from *New* to *Closed*
