

Redmine - Defect #2145

gravatar\_id should use downcase email

2008-11-07 14:58 - Philippe Lafoucrière

Status:	Closed	Start date:	2008-11-07

Category:	Accounts / authentication	Estimated time:	0.50 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description			
Hi,			
I think the new Gravatar feature is great. Anyway, when I enter my email address in my profile using caps letters ( <a href="mailto:John.Doe@hollywood.com">John.Doe@hollywood.com</a> ), the gravatar_id is invalid and my gravatar is not fetched.			
The gravatar_id generation shouldn't be case sensitive.			
Thanks			
Philippe
