  QQ20151210-0@2x.png

step to reproduce

1. Click Edit on this issue
2. Put thest text `fdaf☐☐dsfa(fdsa ☐` into the input box
3. Randomly press several times left and right key on your keyboard, and u can try to press Backspace key.

osx 10.11.1 safari 9.0.1 (11601.2.7.2)

*- Status changed from New to Closed*

It seems to be a browser issue as the input field is a regular textarea. No problem doing this with Chrome.

**#4 - 2015-12-14 04:01 - Feng Liyuan**

Yeah it's a broswer issue, but I think this software should be capacitible with magor browsers.

**#5 - 2015-12-14 04:45 - Toshi MARUYAMA**

We cannot do anything. You had better report bug to Safari provider.
