

Redmine - Defect #21530

If a new boolean custom field with a default value will be added the value won't be automatically applied to all issues

2015-12-15 19:03 - Nils Grimm

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:		Affected version:	3.2.0
Resolution:			
Description			
<p>If later on another custom field with an default value will be added. All issues will have the state not assigned. Only after changing issue the dafault value will be applied.</p> <p>If you're using the REST API this will cause problems because all issues have to manually set to the default value. Two Fixes would be nice:</p> <ol style="list-style-type: none">1. Is there a reason why the creation of a new boolean custom field isn't automatically set on creation?2. Would it be possible to do this without sending for every issue an mail.
