

Redmine - Feature #21572

Adding custom fields to the Issue Category

2015-12-20 18:50 - Nils Grimm

|  |               |                 |           |
|--|---------------|-----------------|-----------|
| Status:  | New           | Start date:     |           |
| Priority:  | High          | Due date:       |           |
| Assignee:  |               | % Done:         | 0%        |
| Category:  | Custom fields | Estimated time: | 0.00 hour |
| Target version:  |               |                 |           |
| Resolution:  |               |                 |           |
| <b>Description</b><br>It would be great to custom field support for the issue categories, too.<br><br>In our case would I classify the categories in different groups.<br>This would be help full for further REST API based processing.<br><br>Other idea would be a category hierarchy, or tree. |               |                 |           |
