

Redmine - Defect #21595

LDAP test pass when LDAP admin user is expired

2015-12-23 13:20 - Riccardo Pelliccioli

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	LDAP	Estimated time:	0.00 hour
Target version:		Affected version:	3.1.1
Resolution:			
Description			
When your LDAP Administrator password has expired the LDAP connection test pass when all the LDAP users aren't able to login.			
Workaround: renew the LDAP Administrator password (or the user used to integrate with redmine) or set the password noexpiry option			
Tested with:			
Redmine version	3.1.1.stable		
Ruby version	1.9.3-p551 (2014-11-13) [x86_64-linux]		
Rails version	4.2.4		
LDAP	SAMBA 4 in AD mode		

History

#1 - 2020-11-17 01:51 - Andrew Mo

The LDAP test will also pass when the credentials were completely wrong. This is probably related to [#4483](#)
