

Redmine - Defect #21614

Target Version does not appear in WorkFlow>FieldPermissions

2015-12-28 18:49 - Amin El-Naggar

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	3.0.3
Resolution:	Invalid		
Description <ul style="list-style-type: none">• Even though I have open versions in my projects I can't assign any tickets to the versions• Target Version also does not appear in `Work Flow > Field Permissions`• Versions do appear in `issues` as "Target Version" and you can filter the issues list by it• Versions do appear in `version planning` which is generated by a well known plugin called [Redmine Agile Plugin](http://www.redminecrm.com/projects/agile/pages/1) created by [RedmineCRM](http://www.redminecrm.com/)<ul style="list-style-type: none">◦ If you try to drag any of the following tickets there however it refuses and shows the displayed image <p>1. All of the above was attempted with an administrator account with full access and no restrictions</p> <p>Basically the versions are clearly in the database, however they do not seem to be assignable for some reason</p>
