

Redmine - Patch #217

New "Open Issues assigned to me" view for /my/page

2007-04-05 14:30 - Peer Allan

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description <p>This is a more detailed version of the "issues assigned to me" view from the /my/page. It is basically the same as the existing view with these differences</p> <ul style="list-style-type: none">- it only shows open issues,- Issues are sorted by priority- Additional column for Priority- Additional column for Due Date- moved project into separate column- added "Status" column with the issue status and last updated time- Modified Tracker column to just show the tracker (Bug, Feature, etc.) <p>The new view is completely separate from the existing view and has been added as one of the view options to add when personalizing the page. As I only speak English I was only able to add the new label to the en.yml file. I added the required line into the other localization files with placeholder text (in English) that will need to be updated by someone who can speak/translate it into the correct language.</p> <p>I was not sure how to write tests for this, but if someone would be willing to give me some direction on how to I would be more than happy to do it.</p> <p>Peer</p>

Is duplicate of Redmine - Feature #1565: Custom query on My page		Closed	2008-07-03

History

#1 - 2007-04-05 16:05 - Peer Allan

Another difference I forgot to note is that the limit of 10 items was removed

#2 - 2010-05-16 17:33 - Muntek Singh

- Status changed from New to Closed

Makring this as duplicate as #1565, combining all these similar requests into "Custom Queries for /my/page"
