Description

I know there is a plugin called "Attach image from clipboard"

but it doesn't work on Redmine 3.2.0 latest version.

we are spending many efforts to convert clipboard image to a file. and no way to downgrade it to 3.0.7

Is there any way to attach image from Clipboard, in Redmine 3.2.0?

Thanks in advance.

- Resolution set to Invalid

As you know, plain Redmine does not support attaching image from clipboard. Please contact the author of the plugin and request for updating the plugin.

If you want help, please use forums.
