Please, give at least your Redmine, ruby and ruby on rails versions as requested in [SubmittingBugs](#).

Hello,

Same issue on Activity page.

I installed last version of redmine (0.7.3) with following config :

- DB : mysql 5.0.67  
- Ruby 1.8.7  
- Rails 2.0.2

I created a new project, a new type of issue (Task), added a Task to the project.  
Then Activity page display 500.html message.  
Log file shows the same messages than hereunder (TemplateError) on line #11 of projects/activity.rhtml.

### #3 - 2008-11-17 00:25 - Jean-Philippe Lang

Redmine 0.7.3 and Rails 2.0.2 are not compatible with ruby 1.8.7 (see: <http://rubyonrails.org/down>).

### #4 - 2008-11-27 11:47 - Ramesh Nair

I am seeing this too. My setup is:

DB: mysql 5.0.51a  
Ruby 1.8.7  
Rails 2.2.2

I found a fix on [http://blog.sviluppweb.eu/2008/11/26/undefined-method-length-for-enumerableenumerator-on-text\\_helperrb50in-truncate/](http://blog.sviluppweb.eu/2008/11/26/undefined-method-length-for-enumerableenumerator-on-text_helperrb50in-truncate/)

Basically, add the following to redmine/config/environment.fb (near end-of-file):

```
module ActionView
  module Helpers
    module TextHelper
      def truncate(text, length = 30, truncate_string = "...")
        if text.nil? then return end
        l = length - truncate_string.chars.to_a.size
        (text.chars.to_a.size > length ? text.chars.to_a[0...l].join + truncate_string : text).to_s
      end
    end
  end
end
```

This got it working for me.

Oops, meant to say environment.rb

### #6 - 2008-12-28 10:47 - Jean-Philippe Lang

- Status changed from New to Closed  
- Resolution set to Invalid

See Redmine requirements in the [install guide](#).

### #7 - 2009-03-09 21:22 - ron nor

Thats solution worked for me too. I added the snippet above directly under the other ActionView-Stuff near end of file.

Can you please specify where you exactly added that snippet? I'm not able to get it working.
