Description

I think it would be rather convenient to have number of issues returned be each query in a query title (in brackets) - please see my example picture.

Our environment:

```
Environment:
  Redmine version      2.5.2.stable
  Ruby version          2.0.0-p0 (2013-02-24) [x86_64-linux]
  Rails version         3.2.19
  Environment           production
  Database adapter      Mysql2

SCM:
  Subversion            1.6.11
  Cvs                    1.12.12
  Git                    1.7.7.3
  Filesystem

Redmine plugins:
  redmine_code_review   0.6.3
  redmine_issue_templates 0.0.9
  redmine_mylyn_connector 2.8.2.stable
```
