Description
Did anybody already notice that on IE 11 the ticket filter is not working any more!?
Is there a workaround or any bugfix?
P.S.: I'm currently working on a 3.0.3.stable version of Redmine.

Worked for me on Redmine 3.0.7 with IE 11.0.27 and Redmine 3.0.x is not maintained.

OK i will try it with a newer version of RM. But it might take a while for me since it's already running in prod.
Looking on the Roadmap - is there already an sceduled release date for v 3.3 ?
