- Target version set to 3.3.0

This patch changes translation for field_time_entries_visibility from "Viditelnost šasového logu" to "Viditelnost časových záznamů".

"časových"and "záznamů" means "time" and "records". Maybe "šasového" is a typo of "časového".

exactly,
"šasového" is a typo of "časového"
this is correct, but "log" doesn't exactly mean "entries" like in english. It is more something like a protocol or a list of something.
"Viditelnost časových (the plural of časový) záznamů (entries)" is much more natural sentence.
