<b>Category:</b>	Accounts / authentication	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.0.3
<b>Resolution:</b>			
<b>Description</b>			
Redmine install information:			
Environment:			
Redmine version	3.0.3.stable		
Ruby version	2.1.5-p273 (2014-11-13) [x86_64-linux-gnu]		
Rails version	4.2.1		
Environment	production		
Database adapter	Mysql2		
SCM:			
Subversion	1.8.10		
Mercurial	3.1.2		
Bazaar	2.7.0		
Git	2.1.4		
Filesystem			
Redmine plugins:			
no plugin installed			
Description:			
If an admin performs a password reset on a user and generates a new password ( by checking the Generate password box ), and unchecks the option to send the email with the new credentials to the user, there is no way to obtain the new credentials for the user, making the functionality useless.			
Redmine should detect that the password will not be sent to the user, and display the generated password to the administrator performing the reset.
