

Redmine - Defect #22108

Issues filter for CSV Export are not applied

2016-02-24 10:27 - Takayuki Araki

Status:	Closed	Start date:											
Priority:	High	Due date:											
Assignee:	Jean-Philippe Lang	% Done:	0%										
Category:	Issues filter	Estimated time:	0.00 hour										
Target version:	3.2.1	Affected version:	3.2.0										
Resolution:	Fixed												
Description													
<p>When I export CSV file from Issues. Now the filter for issues, e.g. status, categories are not applied and all opened issues in the project are exported.</p> <p>I was confirmed that this problem only occurs in version 3.2, not in 3.1.</p> <p>I found 2 points.</p> <ol style="list-style-type: none">1. CSV export options form doesn't send proper parameter. \app\views\issues\index.html.erb line 80 form_tag(params.merge({:format => 'csv',:page=>nil})) a form tag with parameters in the action attribute. But, parameters don't send to the controller.(This has occurred even 2.6.) And so, IssuesController#index tries to get the filter from session data.2. Format of session data changed in 3.2 queries_helper.rb line 215 <pre>session[:query][:project_id] != (@project ? @project.id : nil)</pre> returns nil in 3.2. session[:query][:project_id] is nil. session[:query]["project_id"] has the project_id. <p>And so, IssuesController#index cannot get the filter from session data.</p> <p>Environment:</p> <table><tr><td>Redmine version</td><td>3.2.0.stable rev.15148</td></tr><tr><td>Ruby version</td><td>2.1.5-p273 (2014-11-13) [i386-mingw32]</td></tr><tr><td>Rails version</td><td>4.2.5.1</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>Mysql2 (5.6.20 MySQL Community Server (GPL))</td></tr></table>				Redmine version	3.2.0.stable rev.15148	Ruby version	2.1.5-p273 (2014-11-13) [i386-mingw32]	Rails version	4.2.5.1	Environment	production	Database adapter	Mysql2 (5.6.20 MySQL Community Server (GPL))
