Redmine - Defect #22108

Issues filter for CSV Export are not applied

2016-02-24 10:27 - Takayuki Araki

Status:	Closed		**Start date:**	
Priority:	High		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Issues filter		**Estimated time:**	0.00 hour
Target version:	3.2.1			
Resolution:	Fixed		**Affected version:**	3.2.0

Description

When I export CSV file from Issues.
Now the filter for issues, e.g. status, categories are not applied and all opened issues in the project are exported.

I was confirmed that this problem only occurs in version 3.2, not in 3.1.

I found 2 points.

1. CSV export options form doesn't send proper parameter.
\app\views\issues\index.html.erb line 80
form_tag(params.merge({:format => 'csv',:page=>nil}) a form tag with parameters in the action attribute.
But, parameters don't send to the controller.(This has occurred even 2.6.)
And so, IssuesController#index tries to get the filter from session data.

2. Format of session data changed in 3.2
queries_helper.rb line 215

```
session[:query][:project_id] != (@project ? @project.id : nil)
```

returns nil in 3.2.

session[:query][:project_id] is nil.
session[:query]["project_id"] has the project_id.

And so, IssuesController#index cannot get the filter from session data.

```
Environment:
  Redmine version                3.2.0.stable rev.15148
  Ruby version                   2.1.5-p273 (2014-11-13) [i386-mingw32]
  Rails version                  4.2.5.1
  Environment                    production
  Database adapter               Mysql2 (5.6.20 MySQL Community Server (GPL))
```
