- File application.zip added

Thank for Toshi MARUYAMA having added a simple line on bottom of application.js to create a HTML5 control if the attachment is an mp3.

Add little change for both <video>(.mp4) and <audio>(.mp3) support, just refresh your browser and see after the new js!

```
$(document).ready(function(){
  $(".attachments p:has(a[href$='.mp3'])").after(function () {
    return "<audio controls><source src=\"\" +
      $(this).find(" a[href$='.mp3'] ").attr("href")+\"\" type=\"audio/mp3\"</audio>"
  });
});
```

```
$(document).ready(function(){
  $(".attachments p:has(a[href$='.mp4'])").after(function () {
    return "<video width=\"600\" height=\"400\" controls><source src=\"\" +
      $(this).find(" a[href$='.mp4'] ").attr("href")+\"\" type=\"video/mp4\"</video>"
  });
});
```

```
});  
});
```

#### #4 - 2017-02-08 10:26 - diamond2nv GitHub

```
| return "<video width=\|\"600\|\" height=\|\"400\|\" controls><source src=\|\"\" +
```

640\*360?

Not fit for android browser

#### #5 - 2017-03-05 03:27 - Toshi MARUYAMA

- Related to Feature #10138: Video Player added

#### #6 - 2017-11-21 01:13 - Go MAEDA

- Related to Patch #27336: Render previews for audio and video files added

#### #7 - 2018-10-08 14:12 - Go MAEDA

- Status changed from New to Closed

The upcoming Redmine 4.0 will have audio/video control on the preview page. Please refer to #27336 for details.
