<b>Resolution:</b>			
<b>Description</b>			
<p>I'm traveling a lot and would like the time zone to be detected based on my PC settings.</p> <p>For that purpose, it would be good to have an "Auto detect" setting in Redmine/My account-&gt;Preferences-&gt;Time Zone so that Redmine gets that info from PC.</p> <p>Would be good if that option is default for new users.</p>
