

Redmine - Defect #22137

No possibility to transfer stories/defects between projects

2016-03-03 12:02 - Anixe Support

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	3.2.0
Resolution:	Invalid		
Description Hi, we have no possibility to transfer already assign defect/story to a different project, is there anything that can be done about that? Best regards, Katarzyna Paluch

- File *Selection_065.png* added

Are you refering to issues/tickets?

I think it can be transfered to another project via
Issue->Edit->Project(Drop Down menu).

Selection_065.png

Other wise could you elaborate a bit more on the question and share more context/info about your setup?

#2 - 2016-03-08 07:14 - Go MAEDA

- Category changed from *Issues workflow* to *Issues*

- Status changed from *New* to *Closed*

- Priority changed from *High* to *Normal*

- Resolution set to *Invalid*

Probably you don't have "Edit issues" permission.

#3 - 2016-03-08 09:10 - Anixe Support

Hello,

yes exactly I was referring to this example. How can we make it possible? How to obtain edit issues permission?

Best regards,
Katarzyna Paluch

#4 - 2016-03-08 16:34 - ikuru k

Better to move this to a forum post or somewhere else if you want further support as this is deemed as not a defect.

How to obtain edit issues permission?

Only your redmine admin knows.

If you are the admin and do not know how to give the permission, that question should go to a forum post.

#5 - 2016-03-09 10:59 - Anixe Support

Dear all,

I have checked with our admins and they have given all necessary permissions, in Project field we have a drop down menu to choose between

project, but each time we try to switch to a different project redmine shifts back to the one originally created.

I guess that is a defect?

best regards,
Katarzyna Paluch
