#### Description

Hi,

I know this is not a redmine patch but as I see the bogus SQL server adapter is not only my problem. So I post my sqlserver\_adapter which is working with SQL Server 2005. I think it has one more bug, but usable with redmine! (With this patch you can use ADO trusted connection also!)

Just write over the original in activerecord gem.

Regards,  
Balazs

- Status changed from New to Closed

This is not a patch to redmine, outdated, and I think there are currently available SQL Server adapters for ActiveRecord.
