

Redmine - Feature #22326

New 'Remaining Time' field -- NOT related to the % done

2016-03-28 10:08 - Amr Noaman

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b> <p>To enable burn down charts, users should report the remaining time per task in the iteration (version). This field should be independent and should be different that the estimated time.</p> <p>Typically, the estimated time is only a 'first estimate', and we need it to keep as such. However, the 'Remaining time' should be updated regularly (every day) so that to easily draw a burn down chart.</p> <p>This feature is to introduce the 'Remaining time' concept along with a facility to easily report the remaining time (similar to how users currently easily report their spent time). This cannot be simple introduced using custom fields, because this is not just a field. It will have some more side effects, like accumulating this field on parent tasks, and probably on the version as well.</p>
