

## Redmine - Feature #2237

### Shared Project Configuration

2008-11-27 11:43 - Jorge L. Cangas

<b>Status:</b>	New	<b>Start date:</b>	2008-11-27
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b>			
Possibility of define a 'configuration profile' in order to share common options:			
<ul style="list-style-type: none"><li>• Same members in multiple projects</li><li>• Same categories</li><li>• Same Trackers</li></ul>			
I think this will be 'easy' - ok not too easy :) - to implement using a 'delegation' metaphor:			
A project configuration can declare 'it delegates to' other project. So the non null entries in their configuration, override the entries in the delegated.			
This way I can create a fake project to be used as a base for others that will delegate to this base. The base can be archived to don't disturb in normal work			

### History

**#1 - 2016-09-14 10:39 - Benjamin Schunn**

which kind of configuration do you mean?

**#2 - 2016-09-14 14:17 - Toshi MARUYAMA**
