<b>Description</b>			
For multiple value list custom fields there is no text wrap when displayed as a column on issue list, this breaks page layout.  This should be added to application.css:  tr.issue td.subject, tr.issue td.category, td.assigned_to, tr.issue td.string, tr.issue td.text, <b>tr.issue td.list</b> , tr.issue td.relations, tr.issue td.parent { white-space: normal; }
