

## Redmine - Patch #227

### Patch for pagination in my/page for assigned issues and reported issues

2007-08-29 05:14 - Venkat Bagam

<b>Status:</b>	Closed	<b>Start date:</b>

<b>Target version:</b>			
<b>Description</b> <p>This patch allows you to paginate through the assigned and reported issues in my/page which makes the user feel comfortable when he has to navigate through numerous issues.</p> <p>Right now, the patch is more specific to paginating assigned and reported issues, but can be generalised to be used wherever needed(I will be posting that in my next patch). I have also commented my code on how to customize the pagination.</p> <p>This is my first patch (ofcourse,my first contribution to OSS).So,any suggestions/comments/criticisms are truely welcomed.</p> <p>thanks and regards, Venkat <a href="mailto:venkat.bagam@rknowsys.com">venkat.bagam@rknowsys.com</a></p>

For me the archive is corrupt. Can you put another patch only by text/plain.

Thank. After, I read you patch and comment it.
