

Redmine - Defect #22712

picture's in email notification

2016-05-03 14:24 - Timmy Vercruysse

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<p>Dear,</p> <p>When i i make an issue with a picture in the picture isn't shown inline. I looks like the link for the inline is nog good, while the link for the on the bottom of the mail is correctly.</p> <p>i've filed in the correct hostname for the server, and the link in the bottom of the mail works fine, while the inline picture doesn't have a host before the url.</p> <p>mail_attachment.png</p>			

History

#1 - 2016-05-03 15:14 - Toshi MARUYAMA

- Status changed from New to Needs feedback

See [Submissions](#).

And what is your description as mail body?

#2 - 2016-05-13 23:00 - Timmy Vercruysse

I looks like i can't get the whole code from the mail.
But it looks like this :
The full path of the picture is
http://www.redmine.org/attachments/download/15926/mail_attachment.png
while the inline image gets as path : /attachments/download/15926/mail_attachment.png.
I looks like i have the same issue with the mail's from this issue.

#3 - 2016-05-19 11:55 - Timmy Vercruysse

The problem is solved with the patch from <http://www.redmine.org/issues/2770>
