

## Redmine - Patch #2277

### Patch for #2269 (Issue startdate == adddate can be turned on/off)

2008-12-04 22:55 - Mischa The Evil

<b>Status:</b>	Closed	<b>Start date:</b>	2008-12-04
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b> <p>This is a quick patch to make the default behaviour of Redmine, regarding automatic filling of the startdate-field with today's date when a new issue is created, configurable.</p> <p>It seems that it relates/resolves the proposal of Jean-Philippe Lang in the notes of feature <a href="#">#2269</a>.</p> <p>The default setting is 0 which means that the startdate <b>isn't filled automatically</b> with today's date when new issues are created. This seems the most obvious setting imho, though note that it is the opposite of current Redmine behaviour...</p> <p>Configuring the setting to 1 means that the startdate <b>is filled automatically</b> with today's date when new issues are created. As mentioned this is the current default behaviour of Redmine.</p>			
<b>Related issues:</b> <p>Related to Redmine - Feature #2269: Default issue start date should become co... <b>Closed</b></p>			

#### Associated revisions

##### Revision 7733 - 2011-11-05 19:40 - Etienne Massip

Added an administration setting to allow issue start date to be defaulted to blank (nil) at issue creation (#2269).

Based on the patch of #2277 contributed by Mischa The Evil.

I have checked your iteration on the patch and it seems you've not only updated the patch but also improved it... :thumbsup:

##### #6 - 2009-05-22 00:52 - Mischa The Evil

- File new\_setting-issue\_startdate\_is\_adddate-r2761.diff added

I have updated Dennis' patch against Redmine trunk [r2761](#) after discussion on IRC which also brought up the idea to make this global setting a per project setting. Will take a look at that later...

##### #7 - 2010-10-12 01:00 - Mischa The Evil

- File new\_setting-issue\_startdate\_is\_adddate-r4249.diff added

I have rebased the patch against Redmine trunk [r4249](#). None new features are integrated within the patch yet.

**#8 - 2010-10-14 05:25 - Bruno Medeiros**

- *File new\_setting-issue\_startdate\_is\_adddate-r4214.diff added*

I rebased the patch to the [r4214](#) (version [1.0.2](#)), just to make it easy to apply on this version.

BTW, I don't understand why this patch is not applied on trunk...

**#9 - 2010-11-19 05:18 - Beau Simensen**

+1

Is there a description of the process for getting patches applied to trunk? Something like this that has been in the system for two years... did the submitter do something wrong? Or why is it still not in actual district?

**#10 - 2010-12-02 03:13 - Mischa The Evil**

- *File ro2277-new\_setting-issue\_startdate\_is\_adddate-r4425.diff added*

I have rebased the patch against the Redmine trunk at [r4425](#) ([source:trunk@4425](#)) and included the pt-BR translation provided by Bruno Medeiros in [note-8](#). Some core changes were affecting the applicability of the older patch file. None new features are integrated within the patch.

ToDo:

- add test-cases to the patch
- investigate and/or decide on idea to make this global setting a per project setting
- get more feedback about *YetAnotherCoreSetting* for this feature

**#11 - 2010-12-03 09:04 - Bruno Medeiros**

- *File ro2277-new\_setting-issue\_startdate\_is\_adddate-1.0.4.STABLE.4450.diff added*

I merged the patch ro2277-new\_setting-issue\_startdate\_is\_adddate-r4425.diff and new\_setting-issue\_startdate\_is\_adddate-r4214.diff for the branch 1.0-stable.

**#12 - 2011-01-15 08:00 - Beau Simensen**

How can we get someone to consider putting this into Redmine core someday? Who should we be asking?

**#13 - 2011-01-27 07:34 - Axel Müller**

+1

Please make this configurable in the core with default to NOT fill in the start date automatically.

**#14 - 2011-04-10 05:31 - Beau Simensen**

How can we get someone to consider putting this into Redmine core someday? Who should we be asking? (again)

I dislike having to maintain my own copy of Redmine largely for the purpose of this patch. If there are concerns for why this should not be merged into trunk can we discuss them?

**#15 - 2011-04-14 05:34 - Ling Li**

+1

The current default behavior of having "today" as the default start date is annoying. Every time I had to remember to delete it. Can this be merged into the next release?

**#16 - 2011-04-14 09:34 - Etienne Massip**

- *Target version set to Candidate for next major release*

Agreed.

**#17 - 2011-09-20 06:39 - Alex Last**

+1 when are we going to have this "major release"?

#18 - 2011-10-17 16:38 - Lars Dornheim

- File patch-2277\_new\_setting-issue\_startdate\_is\_adddate-1.1.0.diff added

I updated the patch for the 1.1.0 version and added a German translation.

This patch is really needed for us to clean our calendars from unnecessary begin dates.

+1

#19 - 2011-10-18 23:06 - Mischa The Evil

Lars Dornheim wrote:

I updated the patch for the 1.1.0 version and added a German translation.

Thanks for doing so.

@ all: I still like to get some feedback on the ToDo's I've mentioned earlier in [note#10](#):

- add test-cases to the patch
- investigate and/or decide on idea to make this global setting a per project setting
- get more feedback about *YetAnotherCoreSetting* for this feature

#20 - 2011-10-21 13:28 - Szymon Nowak

I'm trying to apply this patch in 1.2.1 but it's not working :( Is there any patch that works in current stable?

#21 - 2011-10-21 18:00 - Mischa The Evil

- File ro2277-new\_setting-issue\_startdate\_is\_adddate-1.2-STABLE-r7580.diff added

Szymon Nowak wrote:

I'm trying to apply this patch in 1.2.1 but it's not working :( Is there any patch that works in current stable?

I've rebased the patch against [source:/branches/1.2-stable@7580](#) so it should be easier to merge the patch in Redmine 1.2.x.  
If you have any other questions feel free to ask...

#22 - 2011-10-22 23:49 - Terence Mill

+1 for trunk

#23 - 2011-11-06 18:16 - Etienne Massip

- Status changed from New to Closed

- Target version deleted (Candidate for next major release)
