Redmine - Feature #22951

Make Tracker and Status map-able for CSV import

2016-06-01 09:16 - Sebastian Paluch

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Importers		**Estimated time:**	0.00 hour
Target version:	3.3.0			
Resolution:	Fixed			

Description

It would be much easier to import issues when Tracker field is map-able, CSV files often have more than one type of issues. Now, it is required to split CSV files by issue type and import multiple times under different trackers.

related to [#950](#950).

Merged r15512 from trunk to 3.3-stable (#22951, #23558)

Include required module.

History

#1 - 2016-06-04 15:01 - Haihan Ji

Not only TRACKER, I need STATUS too.
For some reason, my customer can't access our intranet.
But we need them do some feedback.

1. export issues, convert to xls file;
2. send xls to customer by email;
3. customer fill feedback in xls;
4. receive feedback, convert to csv;
5. import to redmine (update old issue and insert new issue)

we do this by Importer (http://www.redmine.org/plugins/importer) now.

#2 - 2016-06-11 07:35 - Jean-Philippe Lang

- Subject changed from Make Tracker map-able for CSV import to Make Tracker and Status map-able for CSV import

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

- Target version set to 3.3.0

- Resolution set to Fixed

You can now map tracker and status when importing issues.

Updating issues during the import is quite different, please open a new feature request for that.
