

## Redmine - Defect #23031

### CSS Wrong icon for details

2016-06-09 23:12 - César DJ Caësar 9114

| <b>Description</b>  |          |                          |           |
| Hello,<br>I'm currently developing a plugin for Redmine, and I saw that there may be a mistake regarding a class: |          |                          |           |
| <pre>.icon-details { background-image: url(../images/zoom-in.png); }</pre>  |          |                          |           |
| I would have written:   |          |                          |           |
| <pre>.icon-details { background-image: url(../images/magnifier.png); }</pre>                                      |          |                          |           |
| Because "zoom-in" already exists here:  |          |                          |           |
| <pre>.icon-zoom-in { background-image: url(../images/zoom_in.png); }</pre>  |          |                          |           |
| And "magnifier" doesn't exist anywhere.   |          |                          |           |
| <b>Related issues:</b>  |          |                          |           |

### History

#### #1 - 2016-06-11 07:13 - Jean-Philippe Lang

You should use .icon-magnifier which uses magnifier.png. .icon-details class is no longer used and should be removed.

#### #2 - 2016-06-11 22:22 - César DJ Caësar 9114

Merci Jean-Philippe, but I'm currently using version 3.2.1 (stable) of Redmine, and there is no .icon-magnifier. There is a -search-magnifier in responsive.css, though.

I may have missed something but I looked among all the files using:

```
grep -rnw '/usr/share/redmine/' -e "magnifier"
```

#### #3 - 2016-12-11 08:30 - Go MAEDA

- Related to Patch #24578: Remove unused CSS class ".icon-details" added

#### #4 - 2016-12-11 08:33 - Go MAEDA

- Category changed from Themes to UI

- Status changed from New to Closed

- Resolution set to Wont fix

Since I have created a issue [#24578](#) to remove icon-details, I am closing this issue.

responsive.css, though.

.icon-magnifier was introduced in Redmine 3.3.0.
