Redmine - Patch #23083

Allow filtering for system-shared versions in version custom fields in the global issues view

2016-06-16 14:17 - Holger Just

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Issues filter		**Estimated time:**	0.00 hour
Target version:	3.3.0			

Description

Given an issue custom field of type Version, it should be possible to filter issues by this field on the global issues view. The behavior should be compatible with the basic version filter.

Right now, on the global issue screen, the list of available values for these custom fields is always empty.

The attached patch adds the functionality to be able to filter system-shared versions in these custom fields, given the custom field has the following characteristics:

- is is defined as a filter,
- it is enabled on all projects,
- there are system-shared version available

The patch was developed by Planio. It should apply cleanly against the current trunk.

Associated revisions

Revision 15536 - 2016-06-18 07:59 - Jean-Philippe Lang

Allow global versions to be shown outside of a project for version custom fields (#23083).

Patch by Holger Just.

Revision 15541 - 2016-06-18 08:45 - Jean-Philippe Lang

Test broken by r15536 (#23083).

Revision 15560 - 2016-06-18 12:18 - Jean-Philippe Lang

Merged r15536 and r15541 (#23083).

History

#1 - 2016-06-18 03:44 - Go MAEDA

- File 23083-screenshot.png added

- Target version set to 3.3.0

Thanks for the patch. It works fine for me.
