Redmine - Defect #23182

url in email + sub uri = sub uri duplication

2016-06-28 00:05 - Evgeniy Dushistov

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Email notifications	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	3.2.1

Description

I configure redmine to be https://server/redmine via

```
RedmineApp::Application.routes.default_scope =  { :path => '/redmine', :shallow_path => '/redmine'
 }
#RedmineApp::Application.routes.default_scope = "/redmine"
# Initialize the Rails application
Rails.application.initialize!
Redmine::Utils::relative_url_root = "/redmine"
```

all works fine, except links in email - they looks like:
https://server/redmine/redmine/issues/1#change-31

I have set hostname to server, and protocol to https via
Administration->Preference->General
