

Redmine - Feature #23212

Project tree size and counter

Description I work in a big company where we have implemented redmine and have generated many projects which in turn contain subprojects and within several requests. It becomes difficult to work on the project overview for the amount that I count and at the same time, I do not have an indicator / counter to know that amount of subprojectosse include for each project. There will be some plugin available that can meet my needs? Thank you very much.

There does not seem to be a plugin, so I made a patch.

- 0001-Enable-to-display-subprojects-count.patch
- 0002-Enable-to-display-subprojects-child-count.patch

The two patches each add the functionality of the following screenshots.

#2 - 2024-02-28 17:55 - Holger Just

- Priority changed from High to Normal

It seems you forgot to attach the actual patches.

#3 - 2024-02-29 00:34 - Takenori TAKAKI

- File 0001-Enable-to-display-subprojects-count.patch added

- File 0002-Enable-to-display-subprojects-child-count.patch added

It seems you forgot to attach the actual patches.

Thank's [Holger Just](#).
As you pointed out, I didn't attach the patch.
I attach it again.
