

Redmine - Defect #23224

Datepicker doesn't obey the user's settings format

2016-07-01 16:20 - Maxim Krušina

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.0
Resolution:			
Description			
I would like to use date format: yyyy-mm-dd (so I have this time format in my settings), but redmine is displaying probably the browser's default langaue date format - see screenshots.

Ref: [#19468#note-6](#).

#2 - 2016-07-01 17:25 - Toshi MARUYAMA

- Category changed from Issues to UI

#3 - 2016-07-01 17:26 - Toshi MARUYAMA

- Subject changed from Time selector doesn't obey the user's settings format to Datepicker doesn't obey the user's settings format

#4 - 2016-07-05 12:01 - Sebastian Paluch

Maybe a settings to not use browsers data picker would solve the problem?

#5 - 2016-08-23 17:59 - Luc Luc

- File 01-redmine-settings.png added

- File 03-date-picker-expanded.png added
- File 04-date-value.png added

Yes, making native date&time pickers optional (or just not use them at all) would be great.

There is absolutely no way for me to get ISO8601 date format (YYYY-MM-DD) with Chrome's/Chromium's native date&time pickers. Also, with native ones, there are inconsistencies between the settings, displayed date values and date&time pickers (see attachments).

Thanks,
Luc

#6 - 2016-08-23 18:43 - Luc Luc

- File revert-native-date-pickers.patch added

[Maxim Krušina](#), as a temporary solution I ended up reverting c418fab8a76b7672c4f341fb7c3e203ae92b50c0 - Use HTML5 date input fields instead

of text fields with jquery ui date pickers ([#19468](#)) and everything is back to normal for me.

Thanks,
Luc

+1

#10 - 2016-12-10 10:53 - Go MAEDA

- Has duplicate Defect #24575: Inconsistent date format in Date pickers added

#11 - 2017-05-25 15:03 - Luc Luc

Version 3.3.3 is still affected by this issue.

Thanks,
Luc

#12 - 2018-10-30 15:16 - Luc Luc

Same problem on 3.4.6 (two years later); basically after each Redmine update we have to touch the code and disable native date pickers. Patch [#19468](#) is so unfortunate, it makes all date related fields inconsistent and confusing.

I see there are not many people complaining about this issue - is it some simple workaround for it? Any suggestions would be more than welcome.

Thanks,
Luc

#13 - 2021-02-20 06:24 - Go MAEDA

- Has duplicate Defect #34772: edit in issues has wrong date format for due date/start date added

#14 - 2021-05-19 22:24 - Luc Luc

The patch proposed in [#31300](#) solves the problem (applied to version 4.2).
Finally consistent ISO date format again without constantly reverting old patches.
Thank you.
