| Description Hi! Currently we are using an old version of RM at our University. It's Redmine 2.4.7.stable.14236. Now we have to upgrade to a new version (3.3.0 (2016-06-19)). Unfortunately the Meetings -plugin by Arnaud Martel is incompatible with the new version(s) of RM. Meetings plugin plugin to manage meetings in REDMINE by Arnaud Martel V.: 0.2.6 This (fine) plugin is in heavy use here and we can't remove it without being beaten :-) What's up? Is there anybody out who can renovate this plugin for a new RM version > 3? Any ideas and support is very appreciated! Thank you very much! --- rainer.rutka@uni-konstanz.de Rainer Rutka University of Konstanz, Germany | | | |
