Resolution:	Invalid		
Description I have 1000 issues in a project, and export limit is 500. I can't export 501-1000 issues? Now, I have to use some filters to split the list. But, sometime it's difficult to chose suitable filter. How about add a filter, set the offset for whole list (not for page).

Or add an option for exporter.

#2 - 2016-07-11 09:45 - Anonymous

You can set the export limit in Administration -> Settings -> Issue Tracking -> Issues export limit

#3 - 2016-08-09 12:37 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Invalid
