Description	
<p>The following contexts are maintained independently even though they share same contents.</p> <ul style="list-style-type: none">- Textile<ul style="list-style-type: none">- wiki page: [[RedmineTextFormattingTextile]]- help HTML: source:trunk/public/help/en/wiki_syntax_detailed_textile.html- Markdown<ul style="list-style-type: none">- wiki page: [[RedmineTextFormattingMarkdown]]- help HTML: source:trunk/public/help/en/wiki_syntax_detailed_markdown.html <p>I'd like to propose the following procedure to maintain them.</p> <ul style="list-style-type: none">- use the wiki pages as master files- don't the help HTML files directly- the two miki pages include a wiki page for shared contents, [[RedmineTextFormattingRedmineLinks Readmine links]] (done in #16373-26)	

History

#1 - 2016-07-23 17:46 - Hiroo Hayashi

- File *wiki_syntax_detailed_textile.html* added

- File *wiki_syntax_detailed_markdown.html* added

I updated [[RedmineTextFormattingTextile]] and [[RedmineTextFormattingMarkdown]]. (#16373-27)

Please double check if I did not break anything.

The attached are help HTML files generated from the wiki pages above. Use them as help file, source:trunk/public/help/en/wiki_syntax_detailed_textile.html and source:trunk/public/help/en/wiki_syntax_detailed_markdown.html.

#2 - 2016-07-29 22:23 - dumb blob

Hiroo Hayashi wrote:

| *Please double check if I did not break anything.*

I've checked them and both seem to be OK. Thanks for the update.

#3 - 2016-07-30 06:22 - Hiroo Hayashi

- File `wiki_syntax_detailed_markdown.html.patch` added

'dumb blob',

Thank you for your checking.

Maruyama-san,

If you see no problem, please commit HTML files on note 1.

BTW I made some additional minor fixes on `[[RedmineTextFormattingMarkdown]]`.

- use `` and `` instead of `<notextile>`
- remove unnecessary line-breaks

The attached is the patch for the HTML file.
