

## Redmine - Defect #2346

### Table cell with multiple line text.

2008-12-16 09:00 - youngseok yi

<b>Status:</b> Closed	<b>Start date:</b> 2008-12-16
<b>Priority:</b> Normal	<b>Due date:</b>

<b>Category:</b> Wiki	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 0.9.0	<b>Affected version:</b>
<b>Resolution:</b> Fixed	

**Description**

As noted in help forum [Multiple lines in table cell](#), I also miss table cell with multiple line text.

```
+-----+-----+
| redmine | Multiple projects support |
|         | Flexible role based access control. |
|         | Flexible issue tracking system |
|         | Gantt chart and calendar |
|         | News, documents & files management |
|         | etc. |
+-----+-----+
```

If I want to make above table using textile wiki.  
The syntax below would match the expected (using <http://www.textism.com/tools/textile/index.php>).

```
| redmine | Multiple projects support
Flexible role based access control.
Flexible issue tracking system
Gantt chart and calendar
News, documents & files management
etc. |
```

But it doesn't match in redmine.  
I must use `rowspan '6.'` to make this looks as expected. It is very inconvenient for a very complex table.

[hard\\_breaks.patch](#) solves above syntax works.

- comment from [source:trunk/lib/redmine/wiki\\_formatting/textile/formatter.rb#L1955](source:trunk/lib/redmine/wiki_formatting/textile/formatter.rb#L1955))

I hope redmine experts to check. (I'm total stranger to ruby or rails)

wrong link posted.

[source:trunk/lib/redmine/wiki\\_formatting/textile/formatter.rb@2018#L43](source:trunk/lib/redmine/wiki_formatting/textile/formatter.rb@2018#L43) is correct

#### #2 - 2008-12-16 09:58 - youngseok yi

for a couple of check, this patch breaks quote syntax like below.:(

```
> this is quote  
>> this is double.
```

### #3 - 2009-02-17 11:02 - Rene S

We are affected by that too. After a migration from 0.7 to 0.8.1, a lot of tables are broken, because the newline is not handled correctly. Additionally all control commands within the cell are ignored, besides some simple bold/italic commands. So applying plain-html did not work either.

### #4 - 2009-05-13 16:23 - Stanislav German-Evtushenko

same for me

### #5 - 2009-07-19 16:22 - Jean-Philippe Lang

- *Status changed from New to Closed*
- *Target version set to 0.9.0*
- *Resolution set to Fixed*

Fixed in [r2824](#).
