<b>Description</b> Admin -> Settings -> Issue Tracking:  Calculate the issue done ratio with => 'Use the issue status' Parent tasks attributes : % Done => Calculated from subtasks  If I set NEW is 0%, CLOSED is 100%. When all subtasks are closed, the parent issue still is 0% (status is NEW). But I hope it be 100%.  Can you add a switch? Force calculate the parent done ratio from subtasks?
