Description			
Need documentation on custom field "Key/value list"			
Would be helpful to understand how to use this feature.			
Please provide link to existing documentation if it exists.			

History

#1 - 2016-08-14 15:22 - Toshi MARUYAMA

- Tracker changed from Defect to Feature
- Assignee set to Jean-Philippe Lang

#2 - 2016-10-31 15:39 - Anton Jakimovic

+1

#3 - 2017-07-05 21:38 - Lajos Bodnár

+1

#4 - 2017-07-05 22:28 - Mischa The Evil

- Assignee deleted (Jean-Philippe Lang)

This has come up on the forums too: [Please how the new Key/Value list datatype works?](#) and [Custom fields List vs Key/value List](#). The latter provides some clarifications about the format that might be helpful.

Note: I've removed JP-L as assignee of this issue, cause I don't see any reason for this assignment.
