<b>Description</b>			
I suggest changing Japanese translation for label_enumerations from "オプション" to "オプション". "オプション" means "options" or "list". "値" means "value".			
<ul style="list-style-type: none"><li>• The word "オプション" is not so common. Most of search results for "オプション" are Redmine related pages.</li><li>• French translation for the label is "Listes de valeurs" (list of values, similar meaning to "オプション").</li></ul>
