

Redmine - Defect #23660

Email notification on description change without activity view entry

2016-08-25 09:27 - JW Fuchs

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Activity view	Estimated time: 0.00 hour
Target version:	Affected version: 3.3.0
Resolution:	
Description	
<p>When an issue description is changed, this is not logged in the activity view (as described in [[RedmineProjectActivity]]). An email notification of the change is sent though.</p> <p>There should either be both an activity entry & email (preferred) or neither. Having only seems very confusing.</p> <p>Also see #13314.</p>
