Description

The field is of type boolean.
Held filter and grouped by this field when the field value is "No" the group considers that it is empty.
The following case study where I am grouping by the "Eficácia Obtida?" and also bringing column as the information for the conference.

- Status changed from New to Closed

Your Redmine and Ruby are too old.
Please reopen if you have a problem in maintained version.

Excuse me.
I found the solution on the task #18894 and has solved.

Thank you
