

Redmine - Defect #23829

Wrong allow-override example in rdm-mailhandler.rb

2016-09-13 12:55 - Rene H

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	3.2.4	Affected version:	3.3.0
Resolution:	Fixed		
Description			
<p>The help-text in the rdm-manilhandler.rb -script has wrong examples. The current version says eg:</p> <p>You can use --allow_override=all to allow all attributes to be overridable.</p> <p>The correct paramter should be</p> <p>--allow-override all</p> <p>There are also a couple of other examples that use --allow_override instead of --allow-override</p>			

Associated revisions

Revision 15843 - 2016-10-01 09:12 - Jean-Philippe Lang

Wrong allow-override example in rdm-mailhandler.rb (#23829).

Revision 15844 - 2016-10-01 09:16 - Jean-Philippe Lang

Merged r15843 (#23829).

Revision 15845 - 2016-10-01 09:16 - Jean-Philippe Lang

Merged r15843 (#23829).

History

#1 - 2016-09-13 13:26 - Toshi MARUYAMA

- Status changed from New to Confirmed

- Target version set to 3.1.7

```
require 'optparse'
```

```
optparse = OptionParser.new do |opt|  
  opt.on("-o", "--allow-override ATTRS",){|v| puts v}  
end
```

```
optparse.parse!
```

2022-09-30

"--allow-override=all" and "--allow-override all" are accepted.

```
$ ruby test.rb --allow-override=all
all
$ ruby test.rb --allow-override all
all
```

But "--allow_override" should be fixed.

```
$ ruby test.rb --allow_override all
test.rb:7:in `': invalid option: --allow_override (OptionParser::InvalidOption)
$ ruby test.rb --allow_override=all
test.rb:7:in `': invalid option: --allow_override=all (OptionParser::InvalidOption)
```

#2 - 2016-10-01 09:17 - Jean-Philippe Lang

- *Status changed from Confirmed to Closed*
- *Assignee set to Jean-Philippe Lang*
- *Target version changed from 3.1.7 to 3.2.4*
- *Resolution set to Fixed*

Fix committed, thanks. 3.1 is not affected.
